

DOAN VAN HUY

FRONT END DEVELOPER

PERSONAL DETAILS

Name:

Doan Van Huy

Date of Birth:

August 26th, 1995

Address:

Thai Thinh, Dong Da, Ha Noi, Viet Nam

Email:

doanvanhuy268@gmail.com

Phone Number:

098 4433 566

Language:

Vietnamese, English

SUMMARY

- I am a Front End Developer with over 3 years of experience in web application development. With a strong foundation in UI/UX design, I enjoy solving front-end challenges and creating exceptional user experiences. I'm also dedicated to continuously learning new technologies and best practices to refine my skills and deliver high-quality results.

TECHNICAL PROFILE

- Experienced in client-side technologies, including HTML5, CSS3, JavaScript, jQuery, React.js, Angular, and Vue.js 3, React Native, Nextjs.
- Have knowledge of backend technologies such as Node.js, Nest.js, Express.js, MongoDB
- Familiar with RESTful APIs and GraphQL, including designing, consuming, and integrating them into front-end applications for efficient data retrieval and manipulation. Experienced in using tools like Axios and Apollo Client to manage API requests and handle responses effectively.
- Experienced in creating responsive layouts, ensuring compatibility across various browsers, and translating design concepts into functional layouts using Figma. Skilled in using media queries for mobile-first designs and optimizing UI for a seamless user experience on different devices and screen sizes.
- Possess a strong problem-solving mindset, with the ability to analyze and resolve issues efficiently. Skilled in communicating effectively and collaborating directly with clients to understand their needs and deliver tailored solutions.
- Familiar with GIT for version control, JIRA for project management and issue tracking, and Slack for team communication and collaboration. Experienced in using these tools to streamline development workflows, track project progress, and enhance team coordination.

WORK EXPERIENCE

[2/2024 – 7/2024]: Sotatek Viet Nam Company

Project Name	<ul style="list-style-type: none">• Wombat Exchange
--------------	-------------------------------------------------------------------

Project Description	<ul style="list-style-type: none"> Wombat Exchange is a multi-chain, scalable platform that offers low slippage and single-sided staking for stablecoins and pegged assets. It allows efficient swapping and trading of these assets with enhanced liquidity and minimal price impact across various blockchain networks.
Role	<ul style="list-style-type: none"> Front End Developer
Skill set utilized	<ul style="list-style-type: none"> React.js, web3.js, Ethers.js, BigNumber.js
Main responsibilities	<ul style="list-style-type: none"> Experienced in integrating the Solana network into systems, enabling seamless interaction with Solana-based applications. Implemented features such as voting mechanisms and lock functionality on the Solana blockchain, ensuring secure and efficient transactions and user interactions within decentralized applications.

[10/2023 – 1/2024]: Sotatek Viet Nam Company

Project Name	<ul style="list-style-type: none"> Virtual Account Management
Project Description	<ul style="list-style-type: none"> This is an application designed for payment solutions, offering secure and seamless transaction processing across multiple platforms. It supports a wide range of payment methods, including credit/debit cards, digital wallets, and bank transfers, providing users with flexible options.
Role	<ul style="list-style-type: none"> Front End Developer
Skill set utilized	<ul style="list-style-type: none"> Reactjs, CoreUI React, Formik, Yup
Main responsibilities	<ul style="list-style-type: none"> Daily meetings to report task updates to the customer. Receive tasks, analyze requirements, and define solutions. Implement functions and UI based on project specifications.

[06/2023 – 9/2023]: Sotatek Viet Nam Company

Project Name	<ul style="list-style-type: none"> Cardano Explorer
Project Description	<ul style="list-style-type: none"> This application is designed to manage blockchain transactions for ADA coins, allowing users to securely track, send, and receive transactions within the ADA ecosystem. It provides a seamless interface for interacting with the blockchain, ensuring efficient and transparent transaction management.
Role	<ul style="list-style-type: none"> Front End Developer
Skill set utilized	<ul style="list-style-type: none"> Reactjs, MUI, Recharts, Vite, DatePicker, Playwright/test
Main responsibilities	<ul style="list-style-type: none"> Implement functions and UI from the project. Develop new features, fix bugs, and improve existing functionality.
